Directions: Imagine you are at a birthday party where all of the people had a personality disorder. With your group, create a character & explain how this character’s personality disorder was displayed at the party. You may be as creative as necessary. Make sure your parties are school appropriate. Be ready to SHARE your personalities with the class.

**Example:**

**Avoidant Personality Disorder:** Tina sits in the corner of the party, uninterested in pin-the-tail-on-the-donkey or any other activity. Tina doesn’t have any friends at the party, or any in general. Tina thinks that, even though she’s nice, that everyone will hate her. She’s so stupid and ugly anyway...who cares?

**Dependent Personality Disorder**

**Obsessive-Compulsive Personality Disorder**

**Paranoid Personality Disorder**
Schizoid Personality Disorder

Antisocial Personality Disorder

Borderline Personality Disorder

Narcissistic Personality Disorder

Histrionic Personality Disorder
